

1 the first section

1. eine zeile
2. eine Zeile

another text with no sense another text with no sense another text with no sense
another text with no sense another text with no sense another text with no sense
another text with no sense

2 New section

3. a line
4. another line

now I'm writing `\myEnumReset` and the counting starts new. another text with
no sense another text with no sense another text with no sense another text with
no sense another text with no sense another text with no sense another text with
no sense

1. another line
2. a line

another text with no sense another text with no sense another text with no sense
