

Solution with `tbls.sty`

There are different problems with the `tbls` package, which doesn't work with some other packages.

1.	Blah blah blah blah blah blah blah blah blah. Blah blah blah blah blah blah blah blah blah.	xx1	At top
----	--	-----	--------

Solution without any package

This works only when the cell with the bottom allignement is the last one.

A	B	C
1.	Blabla bla bla bla bla bla bla bla bla bla bla.	xxx1
2.	Blabla bla bla bla bla bla.	xxx2
